

A2 • LOW-FIDELITY CORRECTION — ROUND 2

Founder-authorized correction after Claude review • 2026-09-10

THIS ROUND CORRECTS

Generic administrator language • invalid-code recovery • denial recovery • S09 preview/count/address • S10 privacy labels • S11 heading/footer boundary • approved S12 Home shell + relevance slots

PROVENANCE PRESERVED

Original A2 review frames/comments (59/60/61) and the approved S12 exploration (73) remain untouched. This area is the new review target.

STILL OPEN

Final copy/layout • detailed error/offline/loading states • Event ordering beyond evacuation-first • Event geographic match basis outcome • visual grouping/preview-slot competition • full A2 approval

A2 Round 2 — route and state walkthrough

Read the app frames left to right by sheet. Branches preserve distinct meaning and recovery.

RESIDENT APPROVAL PATH

S07 code entry → S07 valid-code confirmation → S08 pending → approved → S11 footer-free tour → S12 Home shell (global footer begins)

RESIDENT RECOVERY BRANCHES

Bad code → correct/re-enter on S07. Unable to check code remains a distinct named service-failure state. Denied → resubmit code or contact Community Administrator.

ADMINISTRATOR PATH

New-request notification (OS permission permitting) → S09 oldest-first queue → S10 approve/deny → return to current S09 queue.

MEMBERSHIP-REVIEW BOUNDARY

S09/S10 may show full self-provided address while pending. “Verified phone” reports step completion only. No phone number; no identity/residency/vetting/bot proof.

S12 EVENT BOUNDARY

Different Event Types remain separate. Every preview row reserves [RELEVANCE — TBD] pending the Event geographic match basis workstream. No final copy/icon/layout choice is implied.

A2 ROUND 2 / 01 — Join code and pending membership

Corrected resident path • original A2 frames and comments remain untouched

S07a R2 • Resident / code entry

JOIN A COMMUNITY

Enter your community code

Use the COMMUNITY JOIN CODE from your invitation. A code lets you request access; it does not grant membership.

COMMUNITY JOIN CODE *

Enter code

NO COMMUNITY CONTENT YET

Members, Requests, Offers and community activity stay hidden until approval.

Continue

Empty code: Continue unavailable.

Unable to check code is a separate service-failure state: preserve input + Retry.

SOURCE: INV S07; REQ Community Joining.

S07c R2 • Resident / invalid code

BAD COMMUNITY CODE

That code did not work

We checked the code, but it does not match an available community.

CODE NOT RECOGNIZED

Check the code from your invitation and try again.

This is not a connection error. No community information or membership access was revealed.

Re-enter code

Distinct bad-code result. Resident can correct/re-enter.

Service/connection failure remains separate and named for Pass 2/A.

SOURCE: INV S07; Claude A2 disposition.

S07b R2 • Resident / valid-code confirmation

CONFIRM COMMUNITY

Request to join?

This valid code identifies one configured community. Confirm it before sending a membership request.

BOULDER HEIGHTS

This is the only community detail shown before approval.

APPROVAL REQUIRED

A Community Administrator reviews the request. Group content stays hidden until approval.

Request to join

Use a different code

Generic Community Administrator language.

Request submits pending membership; valid code alone never grants access.

SOURCE: INV S07; approved correction.

S08a R2 • Resident / membership pending

MEMBERSHIP STATUS

Request pending

Your request to join Boulder Heights was sent to the Community Administrator.

PENDING APPROVAL

The Community Administrator can approve or deny this request. Check again for a newer decision.

NO COMMUNITY ACCESS YET

Members, Requests, Offers and community activity remain hidden.

Check status

Last confirmed state: pending.

Approved → S11; denied → S08b recovery. OS permission may allow approval/denial notification.

SOURCE: INV S08; approved correction.

A2 ROUND 2 / 02 — Denial and administrator review

Membership recovery, privacy and onboarding boundary • current copy remains provisional

S08b R2 • Resident / membership denied

BOULDER HEIGHTS

Access denied

Your request to join Boulder Heights was denied. Community content remains unavailable.

DENIED ACCESS TO BOULDER HEIGHTS
If this is an error, you can submit your community code again or contact the Community Administrator.

Resubmit code

Contact Community Administrator

Resident recovery only; recipient email is not printed. Denied is distinct from pending, revoked, suspended and offline.
SOURCE: INV S08; approved denial correction.

S09a R2 • Administrator / oldest-first queue

ADMIN • BOULDER HEIGHTS

Join requests

2 pending requests • oldest first • list scrolls vertically

ALEX RIVERA

Review request ›

MEMBERSHIP ONLY
Approve/deny pending membership. No moderation or incident controls.

“Verified phone” = verification step completed; it does not prove identity, residency, vetting, or human status.

Preview/count starting point; full self-provided address shown while pending.
No phone number. Each preview opens S10. New-request push subject to OS permission.
SOURCE: INV S09; approved correction.

S10a R2 • Administrator / pending review

REVIEW REQUEST

Alex wants to join

Review the pending information below before approving or denying Boulder Heights membership.

ALEX RIVERA
Verified phone
SELF-PROVIDED ADDRESS — NOT VERIFIED
25 Example Lane, Boulder, CO 80304

APPROVAL EFFECT
Grants community access. It does not create incident-management authority.

Approve membership

Deny request

No phone number displayed. Verified status and self-provided address are explicitly distinct.
Approve or deny returns administrator to the current queue.
SOURCE: INV S10; approved correction.

S11a R2 • Resident / first approved arrival

QUICK TOUR • 1 OF 6

Welcome to Your Community

A short guide shows where to find what matters. Skip it now and replay it later from Help.

WHAT THE TOUR COVERS
Navigation • sourced Events • community membership • Requests and Offers • Profile • replay from Help

LIGHTWEIGHT AND OPTIONAL
Move one topic at a time. Required safety and consent are not part of this skippable tour.

Next

Skip tour

Approved placeholder heading. S11 is the final footer-free onboarding screen.
Global footer first appears on S12. Progression/completion/replay remain Pass 2/A/D.
SOURCE: INV S11; approved correction.

A2 ROUND 2 / 03 — Post-approval Home shell

S12 structure follows the founder-approved exploration; all wording remains provisional

S12a R2 • Resident / usable home location

9:41signal wifl battery

LHL

25 Example Lane

HomeCommunityMessagesProfileHelp

Location-needed is not “no current Events.” Both Event losses are explicit.
Community Summary, Home Status and the full global footer remain available.
SOURCE: approved S12 exploration + A2 dispositions.

CORRECTION BOUNDARIES

EVENT IDENTITIES

Different Event Types stay separate. Related-Event grouping and preview-slot competition remain later design work.

RELEVANCE PLACEHOLDER

[RELEVANCE — TBD] reserves the information requirement only. No icon, final wording, layout, or JSON choice is approved.

FOOTER BOUNDARY

S11 is the final footer-free onboarding screen. The fixed five-destination footer first appears on S12.

STILL DEFERRED

Detailed empty/loading/offline/corrected/suspended states; final copy and layout; ordering beyond evacuation-first; full A2 approval.

REVIEW PROVENANCE

Original A2 frames/comments and the separate approved S12 exploration were not changed.
